MWS11061	Hassocks Golf Club, Hassocks - Archaeological Investigations	Monument

An archaeological watching brief of topsoil on the 14th fairway of Hassocks Golf Club, Hassocks, followed by an excavation of a limited number of features, identified evidence of prehistoric, Romano-British, Anglo-Saxon, medieval and post-medieval activity. A number of possible Anglo-Saxon buildings (including a grubenhauser) were identified but not fully excavated. Much of the site was to be preserved in situ.

ID	Name	Record Type
MWS12047	An Archaeological Investigations at Baldwins, Keymer	Monument

An archaeological watching brief was undertaken at Baldwins, Keymer, Hassocks during groundworks associated with the construction of a new dwelling. During the watching brief a large assemblage made up of pottery and glass was recovered, this all dated to the post-medieval period; a small number of prehistoric worked flints were also recovered. The only feature identified was a modern brick built soak-away.

An evaluation of some 19th century outbuildings at Baldwin's, Keymer was undertaken. The evaluation identified 3 buildings that had been built during the latter half of the 19th century. Only one of the buildings were seen to have intrinsic value.

Oldlands, Keymer, Hassocks is thought to date 1720 however in 1547 when purchased by John Turner an earlier property existed. It is thought that some of the earlier house may have been incorporated into the present house. The property is Listed Grade II and consists of a two storey house with attic rooms and partial cellars dating from the mid 18th century with a single storey attached outbuilding with 19th and 20th century alterations. The property has been altered several times with the introduction of a Victorian partition dividing the main Drawing Room and subsequent additions and changes to the south-east corner and the addition of a north entrance in the 20th century. A heritage statement was undertaken after further alterations were proposed to the property.
